DPS-220UB Replacement Power Supply Unit installation

This package includes:

- 1 x power supply unit
- 1 x metal adaptor
- 3 x flat head screws
- 3 x short PSU screws

Installation Instructions:

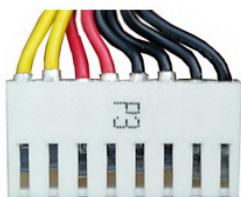

- 1- Fit the metal adaptor to the power supply FIRST with 3 flat head screws.
- 2- Then secure the power supply in the computer with 3 short PSU screws.

Measurements:

Adaptor size:90x52mm
Original PSU size: 90x52x200mm
Replacement PSU size: 80x40x150mm

Remark:

If your original PSU came with the special P3 connector, you will need to cut it off and splice it to an optional "Molex splitter".
